

- A** Helicoptering back to shore.
- B** A drilling and production platform in the Gulf of Mexico.
- C** View from the chopper cockpit.
- D** A workboat used to transfer equipment and people to and from shore.
- E** Semisubmersible drilling rig in the Gulf of Mexico.
- F** Transporting a worker from workboat to rig via a personnel carrier.
- G** The open deck of a workboat in the Gulf of Mexico.

- A** Planning the next drilling location.
- B** A seismic vessel shooting a geophysical survey in the Gulf of Mexico.
- C** Interpreting the results of the seismic survey.
- D** A 3-D visualization center.
- E** Planning the well incorporating seismic analysis.

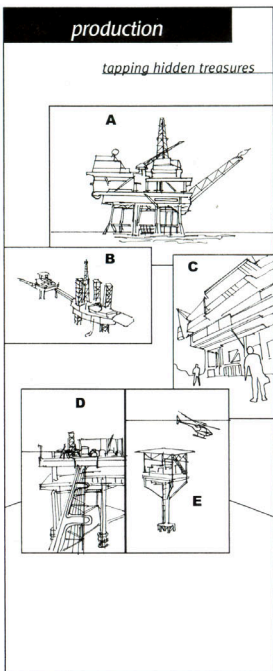

- A** The *Transocean Marianas* semisubmersible drilling rig.
- B** The drilling derrick of an offshore rig.
- C** Roughnecks making up drill pipe.
- D** The *Deepwater Millennium* ultra-deepwater drillship.
- E** The automated pipe handling system.
- F** Dynamic positioning control system on the bridge of the vessel.
- G** Roughneck hoisted above the drillfloor.

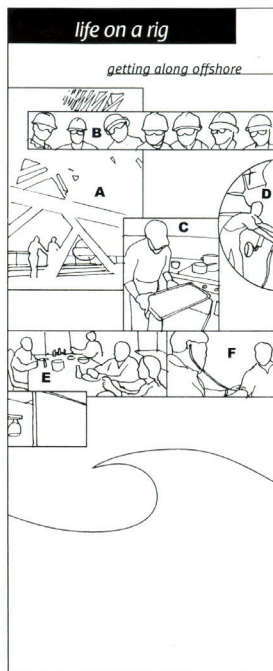

- A** Fabricating the deck of a production platform.
- B** Mating the production deck with the steel base or jacket of a platform.
- C** Towing the jacket of a production platform to location for installation.
- D** Welders fabricating equipment to be sent offshore.
- E** A remote operated vehicle often used in lieu of divers at great depths.
- F** Performing routine maintenance to an offshore structure.
- G** The *Cherokee* pipelay/derrick barge working in the Gulf of Mexico.

5

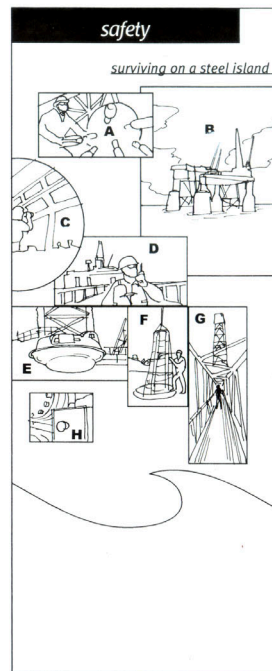

- A** A production platform testing the results of a well.
- B** A jackup drilling rig drilling alongside a small production platform.
- C** View from a workboat of a production platform.
- D** Production and processing equipment installed on a fixed platform.
- E** An unmanned production platform in the Gulf of Mexico.

6

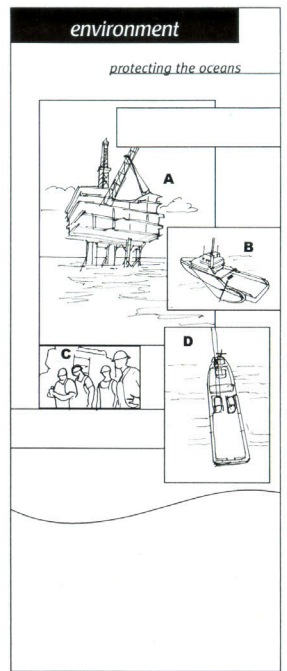

- A** A view through the girders of an offshore rig.
- B** The different faces of offshore workers.
- C** Caterers preparing food in the galley of an offshore vessel.
- D** Fueling the helicopter on the helideck of an offshore rig.
- E** Dining in the galley.
- F** Checking the vitals in the offshore rig infirmary.

7

- A** Worker making adjustments to fire safety equipment on offshore rig.
- B** A submersible drilling rig.
- C** Scanning the horizon from the bridge of a vessel.
- D** Relaying the status from a workboat to a rig.
- E** A lifeboat prepared for an emergency evacuation.
- F** An offshore personnel transport basket.
- G** A covered catwalk on a drillship keeps workers safely away from machinery.
- H** Emergency shutdown controls.

8

- A** A production platform.
- B** An oil spill response vessel.
- C** Environmental consultants monitoring for contamination.
- D** A workboat transporting waste and chemicals to shore for disposal.
